

# ✦ COASTERS ✦

## BIOGRAPHY

Coasters is a duo that hails from sunny Cape Town, South Africa. Katarina (vocals, music and lyrics) and Luke (multi-talented musician and producer) met through mutual music friends and quickly realized their creative compatibility. Their connection swiftly grew into a deep friendship and musical partnership resulting in a long-awaited exploration of their favorite genres.

In 2023, Coasters released their debut album, 'Heartbreak Looks Good On You' and began performing regularly at music venues and festivals. The duo quickly gained traction and landed shows opening for local legends such as Jeremy Loops and Will Linley.

Guided by heartfelt lyrics, seamless chords and captivating synths, Coasters are a harmonious blend of sounds - indie and electro pop with a dash of psych rock - that transcends you through a wave of emotions. And while their music resonates with themes of love and grief, the raw and mesmerising vocals of Katarina enhanced by Lukes's mood-enhancing instrumentals can break your heart and sew it back together again.

Coasters are currently hard at work on their next EP and are in the process of organizing their debut European Performance.
